

Geography – Where in the World?

Prior Learning

Know that land is the part of the Earth's surface that is not covered by water.
 Know that seas are an expanse of salt water surrounding land masses and they cover the majority of the Earth's surface.
 To know that oceans are large salty bodies of water between and around continents.
 Name the world's seven continents and five oceans.

Concepts

Location– The place where something is.

Season – A season is a division of the year based on changes in weather, ecology, and the number of daylight hours in a given region.

Key Vocabulary

Country	An area of land that is controlled by its own government.
Capital City	The city is where the government sits. London is the capital city of England and the UK.
